

Peaks in Kangri Garpo

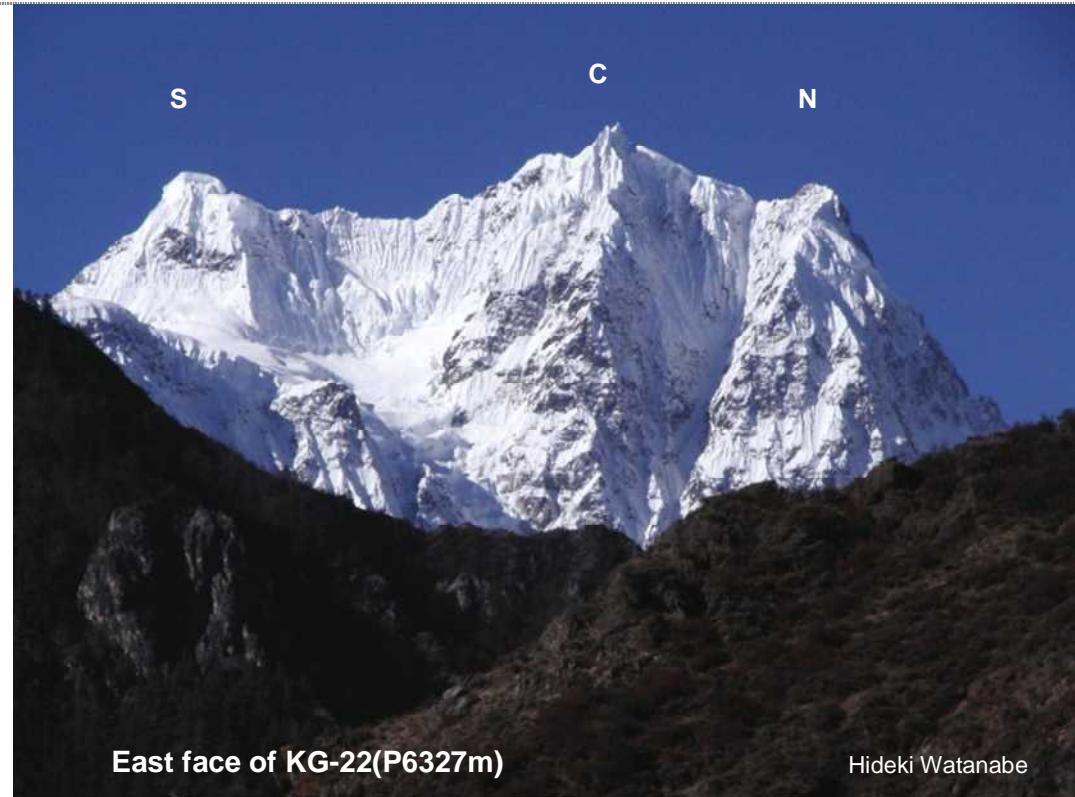

| NO | Peak Name | Elevation | Longitude | Latitude |
|-------|-----------|-----------|--------------|--------------|
| KG-22 | | 6327m | E97-04-39.05 | N29-06-52.43 |

KG-22 from 5050m point in the Ata Glacier

解説:

- ▶ KG-22 (6327m) は崗日嘎布山群の東南端の 6000m 峰でこれより東南の山群の終わる察隅 (Zayul)まで高峰は確認できない。
- ▶ ASTER GDEM の標高は 6149m
- ▶ KG-22 の姿を最初に捉えたのは JAC 福岡の渡部秀樹氏である。
- ▶ KG-22 は North Central South の三つの小ピ - クで構成されていて、North Peak が岩峰で北面が岩壁となっていて特徴ある風貌となっている。北峰は東、西、北から見ることができる。
- ▶ 2006 年 中村保氏は 徳母峠付近から前山越に KG-22 の姿を撮影している。
- ▶ 2008 年スキ - 隊は奥アタカンラ付近から峠越に姿を撮影している。
- ▶ 2009 年 ACKU 隊は阿扎氷河(Ata Glacier)から西面の姿を捉えている。また、Camp-3 (5910m) からも写真がある。

KG-22 from east

Mr. Hideki Watanabe

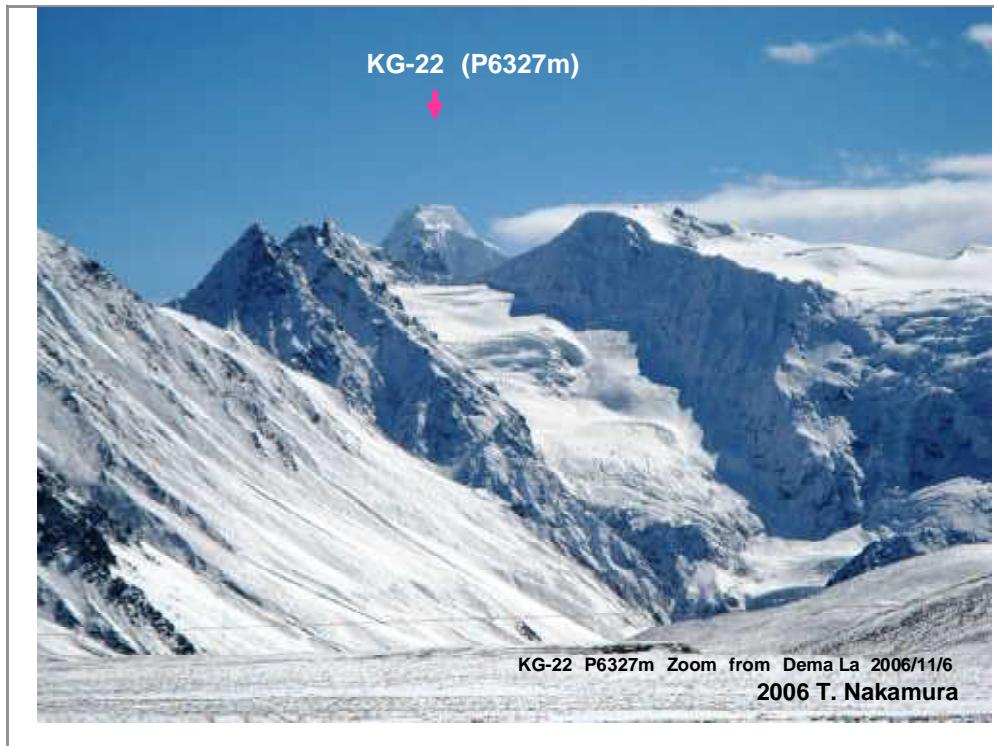

KG-23 and 22 from Camp-3(5910m) of Lopchin Feng

Description:

- ▶ KG-22 (6327m) is the last six-thousander in the south-east end of Kangri Garpo. There are no more high mountain toward Zayul at the end of the mountains.
- ▶ The elevation data of ASTER GDEM is 6149m.
- ▶ The first eye witness of KG-22 was done by Mr. Hideki Watanabe of JAC Fukuoka Ranch.

- ▶ KG-22 composes of three small summits, North, Central and South. The north peak is the figure-point of KG-22 that has rock head and north steep rocky wall. The north peak is visible from the east ,west and north.
- ▶ In 2006, Mr. Tom Nakamura took a picture of KG-22 from near Dema La beyond the front mountains.
- ▶ In 2008, JAC Ski Party took a picture of KG-22 from the pass of Deep Ata Kang La.

- ▶ In 2009, ACKU Lopchin expedition took a picture from 5050m poin of the Ata Glcacier anf a picture from Camp-3 (5910m)

KG-23 and 22 from near the Deeper Ata Kang La
